

WHAT IS TOP?

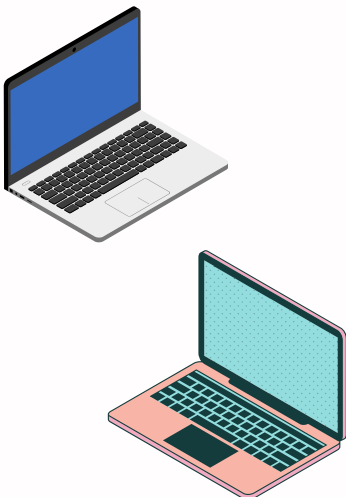

Volunteer university students help middle school students with school difficulties by offering free online tutoring in Italian, mathematics and English.

WHEN?

It will start at the beginning or during the school year. Online meetings will take place for 3 hours per week and a minimum total of 36 hours.

WHERE?

The meetings will take place online on the WeSchool platform, in the afternoon hours. Make sure you have a working internet connection! For the registration and use of WeSchool you will receive support from volunteers.

WHO PARTICIPATES?

01. PROTAGONISTS

TUTEE: your child, middle school student, nominated by his/her teachers to receive didactic support through the TOP project.

TUTORS: university students, **VOLUNTEER**, who offer online educational support to your child, helping him/her to become independent in his/her studies.

02. FAMILIES

Your active cooperation and participation in a few online meetings with the tutor will be important for successful tutoring!

03. SUPERVISOR

This is the professional who trains and accompanies the tutor throughout the process.

04. SCHOOLS

The teachers discuss the curriculum with the tutors, identifying the students' difficulties to work on.

WHAT SHOULD YOU DO AS A PARENT?

1. Tell your child about TOP and, if he/she agrees to participate, confirm this with the teacher at his/her school. If you have doubts about the project, you can always ask him/her.

2. By email or WhatsApp the TOP team will send you two registration questionnaires: you and your child must complete all answers! To finalise the enrolment you will also have to sign the consent. In case of difficulties contact [**top@unibocconi.it**](mailto:top@unibocconi.it)
